

## GOALS AND COURSE TOPICS

Our Individually Designed Education for Adult Learners program (IDEAL) allows adult learners to design a Master of Accountancy program of independent study experiences and online courses that fit their needs. They can study whenever and wherever it is convenient for them, guided by an advisor who pays close attention to their needs.

### Master of Accountancy

The Master of Accountancy program is offered through the main campus in an online format. The MAcc degree is designed to enhance accounting skills specific to a graduate level of study so that graduates are competitive in public industry, private industry and teaching careers. This program will help graduates be able to maintain successful pass rates on the Uniform Certified Public Accounting (CPA) Examination.

### Format

Thirty credit hours are required to graduate with the Master of Accountancy. Three to four courses are offered on a rotational semester basis including summer semester. Each semester, the curriculum focuses on specific areas of the CPA examination so that students can focus on each part of the exam in different semesters. The program provides a broad basis of competitive skills that can lead to various careers in accounting.

All courses are offered online so that prospective students who are working full-time will have some flexibility.

### Who This Program Is For

The Master of Accountancy meets the 150-hour requirement of the CPA examination for students entering directly after the undergraduate degree is completed. This degree also meets the needs of accounting graduates currently working who must have the 150-hour requirement for certification.

## Admissions Policy

The Master of Accountancy Admissions Committee attempts to select for enrollment those applicants considered best able to benefit from a graduate accounting education at Averett University. In making its decisions, the Admissions Committee considers many factors including:

- An undergraduate accounting degree from a regionally accredited college or university
- A cumulative grade point average (GPA) on a 4.0 scale
- Graduate Management Admissions Test (GMAT) score
- Professional work experience
- Letters of recommendation
- CPA exam sections passed

## AVERETT'S MISSION

Averett University prepares students to serve and lead as catalysts for positive change. Averett fulfills this mission by educating students from diverse backgrounds, cultures and nations through liberal arts-based undergraduate and graduate programs in a personal, collegial, interdisciplinary environment.
